Make Stellar Dental Care An Important Part of Your Healthcare Team

Whether you are 8 or 80, your oral health is important. Most Americans today enjoy excellent oral health and are keeping their natural teeth throughout their lives; however, cavities remain the most prevalent chronic disease of childhood. Some 100 million Americans fail to see a dentist each year, even though regular dental examinations and good oral hygiene can prevent most dental disease. Many people believe that they need to see a dentist only if they are in pain or think something is wrong, but regular dental visits can contribute to a lifetime of good oral health.

At Stellar Dental Care

- We accept most insurance plans.
- Weekend and evening appointments.
- State of the art equipment and facilities.
- Unique, pain-free, dental procedures.

Stellar Kids... Pediatric Dentistry and Orthodontic Services

Our team enjoys working with children... and we have specialists just for kids. We take the fear out of dentistry with comfortable treatment rooms and a cheerful approach. Orthodontics offers a comprehensive approach using traditional, as well as Invisalign®, systems.

Start to Finish... Individual or Multiple Tooth Implants

Replacing missing teeth is important to your overall health as well as to the health of your other teeth. Dental implants are a great way to replace missing teeth and have the added advantage of providing a permanent solution to having removable partials, bridges or complete dentures.

And There's More

As your full service Dental Professionals, Stellar Dental Care also offers TMJ and Sleep Apnea Treatments, Sedation Dentistry, Teeth Whitening, Cosmetic Dentistry, Full and Partial Dentures, and so much more!
